

Facilities that Work

Company Profile

Vision

To become the ultimate expression of reliability and innovation in the spaces where people live and work. With respect, innovation, and dedication, we create standards of excellence that enhance everyday life and build a sustainable future.

Values

Our values are the cornerstone of every action and decision we make. Guided by reliability, transparency, equality, respect, responsibility, and creativity, we move forward with consistency, integrity, and vision.

We cultivate an environment of trust and collaboration, where every individual has a voice and every action has purpose. Through the continuous pursuit of innovative solutions and our commitment to sustainable development, we invest in a future grounded in our values - a future that serves people, society, and the environment.

Philosophy

At **TRUEWORK**, we believe that quality begins with people. Our philosophy is built on consistency, responsibility, and respect. We build relationships, improve processes, and add value to our clients' environments. Reliability is our strength, and attention to detail is our signature.

Promise

Excellence with Integrity. Reliability with Character

Services

Cleaning Services

The cleaning sector is one of the key pillars of our company, with nearly four decades of presence and expertise in the industry. The experience we have gained, combined with our state-of-the-art equipment and the continuous training of our staff, enables us to provide high-quality services that meet even the most complex needs of our clients.

Pest Control Services

With many years of experience and expertise in the field of sanitary applications (pest control, rodent control, disinfection, etc.), we provide high-quality services, ensuring flawless and safe results for our clients.

Green Services

TRUEWORK specializes in providing landscaping and green space maintenance services. Through sustainable and responsible practices, organizations can reduce their environmental footprint while protecting natural resources for future generations.

Transport and Packaging Operations

We handle loading and unloading operations in company storage facilities with absolute reliability, ensuring high-quality and efficient performance at every stage of the process. With our well-trained and specialized workforce, we are capable of meeting everything from basic manual handling needs to the most complex logistical requirements.

Security Services

Security is one of the most critical aspects for the proper operation of any business today, and the need for effective protection is more evident than ever. **TRUEWORK** understands the importance of security and offers comprehensive facility guarding services, providing reliable and high-quality solutions around the clock.

Maintenance of Facilities

Our company has a specialized team of technicians who reliably and responsibly handle all types of inspection, maintenance, and technical support tasks for plumbing systems, electrical installations, air conditioning units, fire suppression systems, and more.

Construction Works

Driven by the passion for creation, we provide specialized and effective solutions for all types of construction projects. Anchored in responsibility and high expertise, we have built a reliable and dynamic network of partners in technical works, construction, and renovations.

Catering Services

We take full responsibility for catering management, offering specially designed menus that satisfy every taste preference and dietary requirement. Additionally, we specialize in providing tailored catering solutions for corporate events, meetings, and other special occasions.

Consumable Management Services

Proper monitoring, storage, and identification of consumable needs can reduce costs, increase efficiency, and ensure the safe and smooth operation of any space.

Rental Services

If you need cleaning equipment for a specific period and want to reduce costs, **TRUEWORK** offers the ideal solution through our equipment rental department. All our machines meet the required quality and safety standards, carry the necessary certifications, and undergo regular inspections and maintenance to ensure their proper and safe operation.

Certifications
